Targeting Mitochondria 2011 – The place to be!

After the success of the first edition held in November 2010, the Scientific Committee of the International Society of Antioxidants in Nutrition and Health (**ISANH**) decided to organize the **2nd World Congress on Targeting Mitochondria** which was held in **Berlin in October 20-21, 2011 at Ritz Carlton Hotel**.

This 2nd edition was a great success too, joining more than 110 professionals (academics and industrials) around sirtuins problematic during 2 days of conferences.

On behalf of Targeting Mitochondria Committee, we would like to thanks all speakers, attendees and partners for their presence and the amazing job they have made.

First of all, we would like to thank our speakers whose, thanks to theirs researches, fine expertise and different point of view, had managed to show us the wide range of scientific advances in mitochondria and sirtuins researches around the world.

We would like to thank all our partners for their supports, presence and help they provide us during those two days. We sincerely wish and hope to collaborate with them for our next events around Mitochondria advances.

And, obviously, we cannot forget all attendees, without who this conference would not be such a great success.

Hoping to have the chance to collaborate with you for our next event,

Best regards

The Targeting Mitochondria Committee

Targeting Mitochondria 2011 – A successful event!

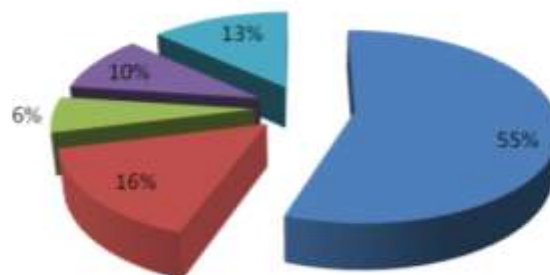

Attendees profiles

This 2nd edition of **Targeting Mitochondria 2011**, which was held in Berlin on October 20-21, was a big success and brought together almost 110 persons coming from 19 different countries, from Germany to Korea.

Targeting Mitochondria 2011 brought together attendees from different kind of departments in companies, or experts from famous University around the world.

Targeting Mitochondria 2011 Attendees profiles

■ Academics ■ R&D manager ■ Executive Board ■ Marketing Team ■ Other

Words of Attendees

“My colleagues and I were very impressed by the high scientific level of the conferences. I was very interested by Pr. V. Gogvadze's presentation who described the role of the mitochondria as target for cancer therapy. Besides this presentation that was related to our field, a lot of presentation gave us critical insights into ageing, mitochondrial dysfunction and of course the sirtuins.

In addition, I want to say that the conference was perfectly organized and we were happy to attend such event.”

-Dr Jérôme Kucharczak, Université de Lyon, France -

“I found the meeting very exciting and I really want to thank you for the great hospitality and for the possibility to present my current research. I find the concept of the meeting excellent, to bring together scientists fighting against ROS impairments with those working generally with mitochondria.”

- Pr F.N. Gellerich, Leibniz Institute for Neurobiology, Germany-

Targeting Mitochondria 2011 – A successful event!

Almost 110 attendees from 19 different countries...

Targeting Mitochondria 2011 – Among speakers

We couldn't have made a such successful and high leveled conferences without the help of all our eminent speakers.

Pr M.W. Anders,
University of Rochester Medical
Center, USA

Pr V. E. Kagan,
University of Pittsburg,
USA

Pr M. Birch-Machin,
Professor in Molecular Dermatology,
Newcastle University, U.K

**Dr W. J. H.
Koopman,**
Radboud University
Nijmegen Medical
Center, Netherlands

Pr D. Chandra,
Department of Pharmacology and
Therapeutics, Roswell Park Cancer
Institute, USA

Dr E. G. Mik,
Erasmus Medical
Center, Netherlands

Pr M. Edeas,
President of International Society of
Antioxidant in Nutrition and Health,
Paris, France

Dr E. Seppet,
University of Tartu,
Estonia

Pr E. Gnaiger
Medical University of Innsbruck,
Austria

Pr K.K. Singh,
University of Alabama
at Birmingham, USA

Dr V. Gogvadze,
Karolinska Institute of Stockolm,
Sweden

Pr V. P. Skulachev,
Moscow State
University, Russia

Pr P. Vandenabeele,
University of Ghent, Belgium

Pr V. Weissig,
Midwestern University
College of Pharmacy
Glendale, USA

Pr F.N. Gellerich,
Leibniz Institute for Neurobiology,
Germany

Targeting Mitochondria 2011 – Among Speakers

Our brilliant speakers

Targeting Mitochondria 2011 – Scientific Awards

At the end of the conference, the Scientific Committee of Targeting Mitochondria 2011 awarded two high quality speakers for their scientific contribution:

Pr Daniela Muniz Arduino, University of Coimbra, Portugal

Pr Yuma Yamada, Hokkaido University, Japan

The Scientific Committee of Targeting Mitochondria 2011 had also given an education award to

Dr Gilles Casano, CNRS Université d'Aix Marseille, France

Dr Gilles Casano Education Award

Dr Yuma Yamada Award

Dr Daniela Arduino Award

Targeting Mitochondria 2011 – Our Supporters Stand

Almost of our supporters had a stand in order to present their last innovations, equipment or results to all of our attendees. They also had the opportunity to meet and discuss with their competitor and partners during those 2 days of conference.
